

Information for GPs

Glengarry Medical Oncology Unit

Glengarry Medical Oncology Unit

Glengarry Private Hospital has long served Perth's northern suburbs as a trusted community hospital. We continue to evolve our services to meet patient needs with clinical expertise, professionalism, and genuine care.

In partnership with **WA Medical Oncology**, we are proud to introduce a new resource for cancer patients in the region.

Waratah Infusion Suite

The **Waratah Infusion Suite** is a newly built, purpose-designed chemotherapy unit located within Glengarry Private Hospital. It offers patients convenient access to high-quality cancer care close to home.

The suite features:

- Modern equipment and comfortable amenities
- A calm, welcoming environment
- Staff who are part of the local community, providing warmth and continuity of care

Patients benefit from easy access to free parking and nearby shops, cafés, and a post office—enhancing convenience during treatment.

Cancer Services at Glengarry

Patients with a confirmed cancer diagnosis and an urgent referral can expect to see an oncologist **same-day or within 24 hours**. Timely access to oncology care supports better treatment outcomes and helps reduce anxiety during a challenging time.

Note: Brain cancers and sarcomas are accepted on a case-by-case basis. Haematology patients are not accepted.

Our Oncologists

An oncologist is available **on-site daily**, ensuring consistent and responsive care.

The team includes **five experienced oncologists**, led by **Dr Andrew Dean**, a recognised leader in innovative cancer service delivery in Western Australia.

Additional Support Services

Cancer patients in Perth's north can access allied health and wellness services at **Joondalup Health Campus**.

joondaluphealthcampus.com.au

Patient Referral Process

GPs can refer patients via **email, EDI, or fax**.

Please include:

- Presenting symptoms
- Relevant medical history
- Diagnostic results (CT scan and tumour marker blood tests preferred)

Additional investigations will be arranged as needed.

Our team will contact the patient directly to confirm their appointment or next steps, including possible admission.
